## **“The Upcoming Year” at the newARTschool, Basel, September 2020-June 2021**

We will concern ourselves with The Mysteries of the Creative, concentrating on questions of Creating Worlds; How do I create a world? Assuming that the creators of our world were not Technicians but Artists, we ask, how is our world created as an example of the Creative? Rudolf Steiner’s descriptions of the world creation in four planetary stages in his book ‘Outlines of Occult Science’ will serve as a foundation for this year. Rather than study the world-creation as such, we will tell it as a myth in expansive pictures. Here we can build on more than 20 years of study and teaching of the great imaginations of creation. The myth will become a source of a search for new, narrative, and epic painting. The methods of work and exercises that we have developed at the newARTschool can serve as both a foundation and point of departure.

### **The work will have three parts:**

- Mornings will begin with a theoretical lecture, in which the myth of *Outline of Occult Science* will be presented.
- Following the morning lecture we will take the essential approaches we have developed for our work, and present and explore their connection to the Creative. For participants who teach art this can be especially of value for their own teaching.
- The afternoons are left open to support your individual work, your own search for an artistic language and the development of paintings on the subject. We will discuss and further this work by observing our pictures together each week..

**The year will be accompanied by exhibitions, concerts, lectures and events and culminate in a festival celebration with a large exhibition on the Myth of Creation at Pentecost, 2021.**

### **Three ways to participate:**

- Full-time studies from September 2020 to July 2021
- Trimester full-time study autumn, winter, spring
- Part-time study of at least four weeks

The full tuition fee is CHF 2950.- per trimester (CHF 8850.- per year), the part-time study is calculated proportionally (350.- per week). The tuition fees help us to give our work over all these years an appropriate, formal conclusion.
